

# READY, SET, *RETURN*

## Mustangs on the Move

❖ *Marcola Elementary School will be the first in the district to return to a full school day, 4 days a week, starting February 22nd!*

### What does *RETURN* mean?

- Marcola Elementary students will have a full school day, hours 8-3
- Students will be a member of a cohort, and will receive classroom instruction, PE, and have recess with this group only
- We are taking a step closer to a traditional school day, with some modifications

### *COHORT?*

A cohort is a group of less than 100 people that your student will interact with during the school day.

[What Cohort is my Student in?](#)

- The state has set 164 requirements that must be implemented for students to return to the building
- The building needs to be prepared to provide a safe environment for students
- The staff has received the mandatory training so that they all understand the new protocols that staff, students, and the community have to follow
- MSD's reopening plan is based on State Metrics

### How do we get *READY?*

- Take the family survey, and provide us the information we need to plan a safe return
- Take a look at some Key Points about Return, in order to best prepare for return
- Make sure you have all the necessary personal protective equipment (PPE)
- Stay up to date on communications about protocols and make sure your family understands what is required to return

This is a big step, and will take all of us working together to be successful. You are invited to a [Zoom Webinar](#), February 4<sup>th</sup>, at 6:00 PM to learn more, and provide feedback.
